ATTEND to your teeth; don't wait until they ache and then in language of regret say you would give most anything to save them. Go at once to Dr. Nichols, Main street, and avoid sleepless nights. Save your stock of patience and, what nature intended, your teeth. s8

CIRCULATING LIBRARY.—Folk & Levin on Main street have just received the latest and best publications at their extensive circulating library, and they offer it to the public at 25 cents per volume. Call and see them.

At Burrage's Drug Store, Main street, directly opposite Lacour street, is the largest and best assortment of pure drugs and patent medicines; also perfumery, fancy goods, paints, oils, turpentine, lamp chimneys, etc. o2-1m

GRAND DEMOCRATIC RALLY.—Last night an immense crowd assembled in Main street, to hear the distinguished speakers, Judges Hardy and Berry. The evening, though cold was pleasant, there being but little wind, and the people seemed determined to let no inconvenience arising from the chilly air, prevent them from listening to the exposition of the duties of Democrats from the lips of the prominent members of the party who addressed them. After the meeting was called to order, Judge Knight was elected Chairman, and introduced the Hon. J. H. Hardy.

Judge Hardy held his audience in wrapt attention by his scathing and masterly exposure of the delinquencies of the Grant Administration, showing that the moving spirit of that clique was simply a question of money, and none other.

There was one point that the Judge made that was worthy the serious attention of all parties, and that is, whether the stock reasons that the Grant men are so persistently advancing for the re-election of Grant to a second term of office, would not apply with equal force to a third term and a fourth term? Judge Hardy also clearly showed the folly of those men who had hitherto called themselves Democrats and acted with the Democratic party, in listening to the insidious wiles so industriously poured into their ears, for the purpose of dividing the election of Grant. The Judge closed with an eloquent and lofty appeal, showing that now was the time to restore the era of amity, to bury the animosities and discord of the past, and together with clasped hands and a common purpose to achieve a common prosperity and a common glory. Judge Hardy elected great applause and received three hearty cheers on retiring. Judge Berry then took the stand, and after expressing his surprise at the vast mass of listeners which he said far exceeded in numbers that of a late mass meeting in Virginia which was addressed by Senator Nye. The Judge went on to show the animus that prevailed at the Baltimore Convention of which he was a member, and how overwhelming was the desire of the members of the Convention who represented the Southern States to secure the nomination of Mr. Greeley. In spite of the past and of all political differences they felt that Horace Greeley had a good benevolent and generous heart, that he was honest, and that they could place themselves with implicit confidence in his hands from the rule of the accused carpet-baggers of which they have so long been the victims. The Judge then most ably and clearly discussed the evils inflicted on the country by the present corrupt administration, and called upon all Democrats and the Liberal Republicans to join in a determined effort to drive from power the men who had shown how unfit they were to possess it. The Judge was listened to with much attention, and afforded great pleasure to his large and earnest audience.

COLD WEATHER.—Yesterday morning before sunrise the ground, and especially the surrounding hills, was covered with a heavy hoar-frost, and the air was exceedingly chilly. By the passengers that arrived last night from Hamilton, we learn that when the stage left that place a snow storm was commencing, and the surrounding mountains were completely covered with snow. This would seem to indicate an early and severe winter, though in this State we have seen the occurrence of quite severe and stormy weather in November, and then clear off and remain fine until after Christmas. To the best of our recollection, the winter of 1877-8 was of this character.

ALARM BELL.—Pat. Holland yesterday received a telegram from Mr. Kirchner, of Hamilton, stating that a bell intended for the use of the Fire Department of Pioche had been shipped per express from Hamilton. An alarm bell has been and is much needed by the fire companies, and will be found extremely useful in warning the members that their services are needed. The cost of the bell will be about \$150, and we hope our citizens will subscribe the amount with readiness, for it is enough to ask a fireman to perform his arduous and at times dangerous duties, without having to pay for his apparatus.

COAL MINES.—Mr. M. F. Turpey, the well known and esteemed Secretary of the Meadow Valley Mining Company, has just returned from a trip to the above mines, which he says are situated in the Wasatch range, about 100 miles due east of Pioche. Mr. Turpey is very favorably impressed with the prospects of procuring an abundant supply of fuel from the region he visited.

THE NEW THEATRE.—Mr. C. B. Lovell, to whom we referred a few days since as endeavoring to form a joint stock company for the purpose of erecting a theatre, informs us that he has received promises of support from many of our best citizens. Mr. Lovell will commence canvassing the city to day, when all who desire to take shares in the stock will have an opportunity to do so. The undertaking besides affording much needed accommodation for theatrical entertainments, balls, &c., will no doubt afford a handsome return to the stockholders.

PHILADELPHIA BREWERY.—The Saloon on Main street attached to the brewery, has been thoroughly repaired, painted and decorated, and now presents a very handsome and inviting appearance. It will be reopened for the use of its patrons on Saturday night, when our genial friend Schnetrich will dispense the lager for which he is so famous, and other potables of the best quality. We think a large circle of friends will attend his reception.

THE BULLIONVILLE RAILROAD.—Yesterday Gen. Page received an instalment of the rolling stock, consisting of an engine, trucks, etc., and other machinery. On the divide we also noticed that the business of getting ties and rails in position had commenced. If the supply of rails from the East comes to hand when expected, we shall soon hear the whistle of the locomotive among the hills of Pioche.

GRADING MAIN STREET.—We are glad to learn that there is a movement on foot having for its object the grading of Main street. This is a work that is greatly needed, both for convenience and appearance. If the street were properly leveled, gutters constructed on each side, and the centre properly raised, it would tend greatly to increase the value of property, as well as give facilities for the constantly increasing traffic. With a good road and sidewalks, Main street would become a handsome thoroughfare.

ARRIVED.—Our old friend Patsey Mason, of the Lorraine-Mason Troupe, arrived last evening, by the Hamilton stage. He is looking around for a hall in which his company can give representations. At present there are not any of that character in Pioche. Patsey, however, nothing daunted, says if he cannot do any better, the troupe will give their entertainments in a tent.

BULLION.—We saw thirty-five large bars of bullion piled up in the Bank of California this morning.—[Va. Chron.]

A pile of bullion of that size in Wells, Fargo's office at Pioche is seen so frequently that no one thinks it worthy of remark.

The Giant Silver Mining Company has filed a certificate of incorporation, to mine in Ely District, Nevada; capital stock, \$3,000,000, divided into 30,000 shares. Also the North Star Lead Mining Company, to operate in Ely District, Nevada. Capital stock, \$3,000,000.

BILL POSTING.—A bill poster will call at the Record office, whenever his services are required. oc26

We have not yet passed out of the reach of the unhinging and debasing influence of civil war. The whole body politic is poisoned to the centre with its moral miasms. The people themselves have become tolerant of corruption, and their servants act upon the fact. This accounts for the license that renders courts no worth the blank paper on which they are written. Laws enacted to protect are used as a cover to destroy the public interests. It is popular to steal. Convict a man of the gravest of public crimes, and this commends him to the public confidence. If the result of the recent elections does not prove this, it proves nothing.—Carson Register.

The above remarks are worth the attention of all thoughtful and honest citizens. Office-holders and shoddyites, especially those that require indorsement from the Pennsylvania Penitentiary, are not expected to think them worthy of notice. But to the honest and patriotic of all parties and classes, there is matter for serious consideration. Of the truth of these observations, there can be no question. That being the case, the inquiry suggests itself: Is such a condition of affairs safe or creditable, and would it not be well to alter it? As a corollary to this interrogatory, it might be further asked: That as most of these evils have arisen to gigantic proportions during Grant's Administration, is it wise to give him another opportunity to aggravate this dangerous and disgraceful condition of affairs?

"GOING FOR HIM."—What a terrible mistake Kendall made when he got the Review down on him! There is no hope for him now when that redoubtable Radical pop-gun following the example of its brother smut, the Carson appeal "goes for him." According to the Review's account it has got both Kendall's feet stuck in the mud of the swamp lands, and is going for the next ten days to have a little fun in picking his bones. We wonder whether Kendall knows all this. We are afraid he does not realize the frightful predicament in which the Review has placed him. So as he is not all likely to see that little periodical, we feel it our duty to offer him this warning—that the Pioche Review (tremble-watched man at the awful doom) is "going for him."

HAYDEN'S YELLOWSTONE EXPEDITION.—Mr. Stevenson's party, that which had charge of the Snake River surveys, reached Fort Hall in safety, October 11. The entire Snake River Basin has been explored. The party reached the Geyser Basin the last of July; obtained supplies from Virginia City, via Meadow Valley. They followed the Madison River to its source, a small lake; crossed the divide to Madison Lake. They found it had no connection with Madison River. It had an outlet about 100 feet wide, flowing in an opposite direction from the one given on the maps, which they followed to its entrance into another lake about five miles wide, and this proved to be the real source of the Snake River. They found a Geyser basin near the source of Snake River, with about 200 springs of all sizes, some of which spouted from 80 to 100 feet in height. The division under the immediate direction of Professor Hayden reached Bozeman on the 14th, having completed the season's labors.—[Cor. Helena Herald.]

The Helena Gazette of the 15th announces a mass meeting to be held in Helena on the 15th, to project measures for the construction of a north and south railroad to connect Montana with the Central and Union Pacific roads.

A U. S. Surveying expedition will soon start to explore the Nicaragua route and ascertain the practicability of constructing an inter-ocean canal in that region.

Gov. Booth and Henry Edgerton are about to engage in the canvass in Nevada. The Rads. evidently feel shaky in their boots and are calling for help from abroad. What a pity it is that Nevada is not near Kentucky, so that they can repeat the tactics of importing a few thousand repeaters in the style they practised in Indiana, Ohio and Pennsylvania.

SPEAKING AT BULLIONVILLE.—This evening Judge Berry and other prominent gentlemen, will address the citizens of Bullionville. We expect to hear of a big turnout and a good time.

BISHOP BROS. have just received a large and fine assortment of Perfumery, Toilet and Fancy Articles, such as Perfine, Pinand and Wright's Cologne, Lubin's and Phalon's Extracts, Florida Water, Pomades, Hair Oil, Cold Cream, Creme de la, Lard's Bloom of Youth, Bazin's Tooth Paste, Steinberger's Glycerine, Honey and Elder Flower Soap, Lubin's Soap, etc., etc., etc., which, together with a full stock of Chemicals and Medicines, they are selling at the lowest market prices.

IN ALL CASES, of whatever nature, Dr. D. H. Whepley guarantees a sure cure. In cases of venereal diseases, piles of long standing, chronic diseases, etc., a cure is effected without the use of mercury. He cures piles in a short space of time. Consultation strictly confidential. Office at Mrs. Pyle's Lodging house—Room No. 5.

C. B. Lovell is still on hand with his Roofing of every description. He is prepared to make whole Leaky Roofs and Gutters, and is also ready to do Painting in all its branches.
